

## **Alfoz of Bricia and Manzanedo Merindad**

### **“Hermits, Romanesque, popular architecture and tradition”**

These beautiful valleys contain treasures difficult to find anywhere else in the world. The legacy left by the hermits in the most inaccessible, beautiful and picturesque places, remains intact in this **territory between Burgos and Cantabria**. From the hermits to the Romanesque art there is only a step, which the walker can state here.

From Rustica we propose our clients to get into their impressive oak and beech forests, looking for the most interesting treasures of this land: the hermitages, some of which are among the most impressive in Europe. Examples of these are the hermitages of Presillas de Bricia and Villaescusa del Ebro, as most representatives, jealously guarded by the waterfall of “El Tobazo”, always accompanied by the Ebro River.

### **Duration**

For the characteristics of the area, the visit can be done comfortably in **half or a full day** and it may be combined with other activities. But that, like everything, is chosen by the customer..
